

Company Fact Sheet

Who we are

Dynetics provides responsive, cost-effective engineering, scientific, and IT solutions to the national security, cybersecurity, space, and critical infrastructure security sectors.

We offer highly specialized technical services and a range of software and hardware products, including components, subsystems, and complex end-to-end systems.

Fast Facts

- **Founded in 1974** and headquartered in **Huntsville, AL**
- **2,500+ employees**
- **Locations** in Alabama, California, Colorado, Florida, Michigan, Mississippi, New Mexico, Ohio, Texas, and Virginia

Leadership

- **David King**, Chief Executive Officer
- **Greg Lester**, President
- **Steve Cook**, Executive Vice President, Corporate Development
- **Mike Moody**, Executive Vice President, Business Operations
- **Ronnie Chronister**, Senior Vice President, Contracts

Certifications

- AS9100D; ISO 9001:2015
- CMMI® DEV Maturity Level 3

We deliver superior quality, high-technology, services and products ethically, responsively, and cost effectively.

Dynetics Strategic Business Areas

Automotive

- Automotive electrical diagnostic systems and engineering diagnostic tools
- Vehicle data loggers
- R&D, engineering, validation, manufacturing, and service support for commercial vehicles

Cyber & IT Solutions

- Mission focused tools and services
- Cyber Risk Management Solutions
- Managed IT Solutions

GroundAware® Surveillance

- Critical infrastructure security
- Low cost long- & short-range detection with real-time classification of targets
- Integration with existing systems
- Lifecycle & support warranty

Intelligence

- Scientific and technical intelligence analysis
- Electronic warfare
- Intelligence, surveillance, and reconnaissance systems

Radars and Sensors

- Advanced radar signal processing
- Foreign weapon systems analysis
- Intelligence, surveillance, & reconnaissance
- Reconnaissance, surveillance, & target acquisition (RSTA)

Space Solutions

- Propulsion systems
- Mechanical and propulsion testing
- Small satellite development
- System integration & assembly
- Mission design & vehicle sizing
- Vehicle structure design and manufacturing

Strike Systems

- Warhead design & development
- Collaborative autonomy
- Rapid prototyping
- Enhanced end-to-end system development, including SGM and Gremlins

Unmanned Systems

- Hardware, software, and payload integration
- Flight test operations & support
- Counter-UAS

Weapons Technology

- Warhead fuzing design, analysis and testing
- Avionics solutions
- Test and training solutions

Hypersonics

- Glide vehicle prototyping
- Complex, classified manufacturing and assembly
- LRHW ground platform development

Directed Energy

- Design and integration of laser weapon systems
- Advanced radar development
- Prime power generation

Advanced Manufacturing

- Electrical manufacturing
- Specialty machined parts and manufacturing

Corporate Responsibility

At Dynetics, our employees understand the value of giving back to communities where we live and work. We believe that supporting organizations through volunteerism and charitable contributions, we can truly make a difference. Our commitment spans from science, technology, engineering, and mathematics (STEM) activities for students to health and well-being events for all ages. We open our doors to non-profit community partners so they can meet in a safe and enjoyable environment. Dynetics is dedicated to serving others and contributing to a better quality of life.
